

# ILB & CMB Series

## Sleeve Wrap

- **Intermittent and continuous motion bundlers**
- **Uses a bucket conveyor (predetermined pitch)**  
*Allows product to be sealed and wrapped without being transferred*
- **Production speeds**  
*Up to 20 or 30 wraps per minute in single lane,  
50 or 80 per minute dual lane*
- **Optional self-monitoring diagnostic system**
- **Optional Gantry automatic discharge system**

## Optional ROKH™ System

### Pick and Place Robotic Infeeds

- Intermittent or continuous motion pick & place loader
- Picks up products from an infeed conveyor, from any angle, and places the product directly onto the shrink film
- Products can be stacked, split, rotated or collated into the desired configuration
- Adjustable grippers to accommodate different shapes and dimension products
- Speeds up to 120 bundles per minute
- Integrated inline or into the side of a current line

equipment

# ILB & CMB Series

Model Shown: ILB24L-P

## Equipment Benefits

- No transfer wrapping allows unstable product multipacks to be produced
- Heavy gauge, stainless steel construction provides strength, rigidity, cleanliness and minimal maintenance
- Engineered as a complete unit with a double insulated tunnel that reduces energy consumption
- Self leveling, Teflon® coated, hot knife seal bar
- PLC with touchscreen interface
