

Tray Loader Former

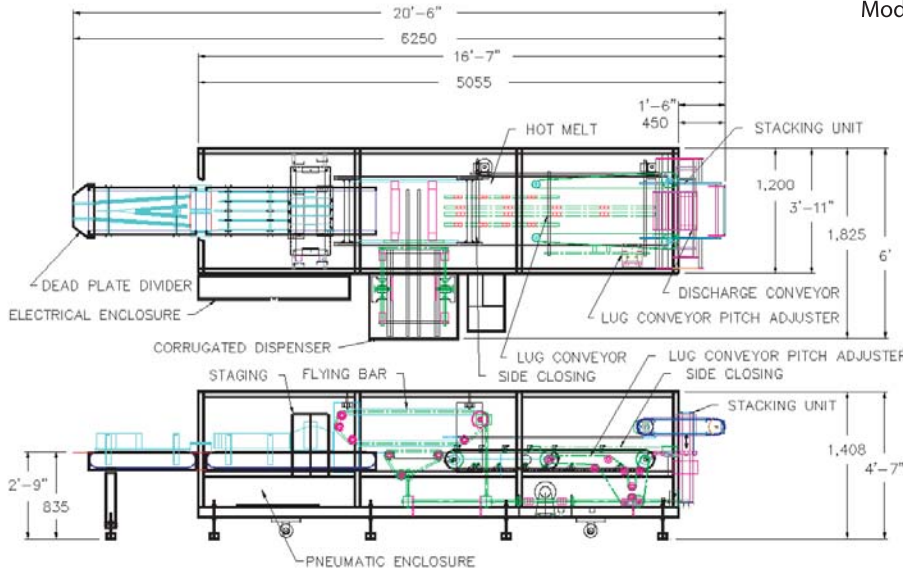

- **Intermittent or continuous motion models**
- **Collation modules available**
Including row formation, orientation, rotation and stacking
- **Tray magazine**
Tray blanks are dispensed by a motor driven lug system; the depth of the magazine is 600mm with the option of being hand-fed or automated
- **Single motor**
Controls synchronic movement of the flight bars, lugs, flap closures and side compression belts for product control
- **Speeds ranging up to 50 cycles per minute**
- **Nordson® hot glue system**
- **Electronic self-monitoring diagnostic panel**
Continuously monitors for fault conditions
- **Integrated single source system**
Can be combined with Polypack's IL or CMS tray wrappers

TR Series

Model Shown: TR-35

Equipment Benefits

- Decompression systems alleviate back pressure induced problems when running flexible products
- Stabilizing modules and guides facilitate feeding of unstable products
- Heavy gauge, stainless steel construction provides strength, rigidity, cleanliness and minimal maintenance
- Polycarbonate enclosures ensure safety and provide for quick access
- Quick changeovers
- PLC with touchscreen interface
