

# Shrink Solutions *for* Tube Multipacks

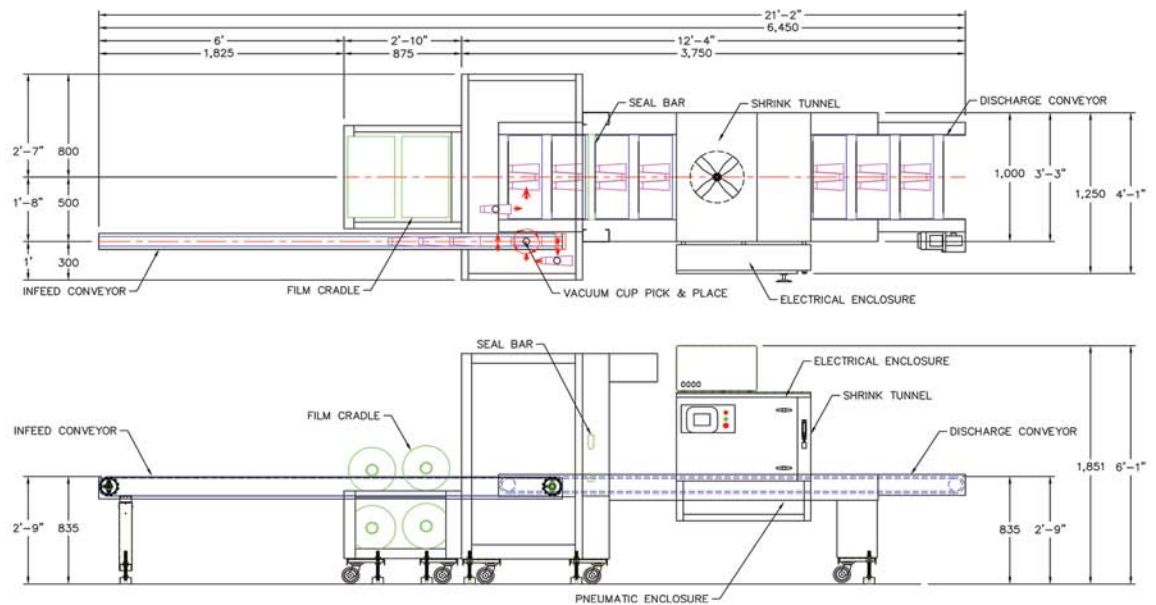

The odd shapes and sizes of tubes have always been a challenge to package. Polypack's patented (#5934049) automatic pick and place loading system feeds our bucket machine wrapper to provide complete automation of the tube multipacking process.

**Reduce cost and space**  
Polypack's Tube 90 shrink machines wrap any configuration of tubes. These packaging systems eliminate chipboard inner cartons and honeycomb dividers. They reduce labor, save and simplify product storage.

# TUBE SERIES MULTIPACK SHRINK WRAPPER

## Equipment Benefits

### Additional Information

Additional information and videos of our product offerings may be found at the following URL:

<http://polypack.com/drugs.asp>
