PLANT EQUIPMENT

POLYPACK

Polypack Inc.'s new nonstop, print-registered shrink-wrapper from Baumer is a multi-pack shrink wrapper to handle products with shrink film, flat cardboard and/or tray, and carton case packers. Features include the ability to pack products with or without partitions, and a simple-to-use touch screen. The company claims users will realize a 5% production increase and more than 15% film savings. The Unit can handle up to 80 cartons per minute.
