

## New Equipment

### Multipack shrink wrapper

#### [Polypack Inc.](#)

- wrapper 16-120 serves pharmaceutical and nutraceutical applications with an integrated collator/wrapper/tunnel
- handles from 2 to 24 packs, at speeds of 30 wraps/min
- uses less than 8 ft of floor space and permits rapid changeovers with a preprogrammed touchscreen

### Syringe filling and stoppering

#### [Basco Technologies, Inc.](#)

- Model 535 machine is for dosing and closing nested syringes and containers
- for pharma and biotech companies looking to automate and/or validate product filling in clinical trials or development
- handles up to 2,000 containers/hour

### RFID tracking and tracing

#### [Nosco](#)

- RFID Package Integration brand initiative helps pharmaceutical, biotech, and medical device manufacturers, and distributors meet federal guidelines and state legislation to protect the U.S. drug supply through the development of an electronic pedigree to track and trace products

### Compliance software

#### [MasterControl Inc.](#)

- Web-based platform is designed to help companies comply with FDA regulations, ISO standards, and the Sarbanes-Oxley Act
- MasterControl Change Control helps sustain compliance by interconnecting quality systems, strengthening the change control procedure, and promoting efficiency
- MasterControl Audit integrates different auditing steps and connects the audit process to the quality system

### Sponsors
