

Product of the Day

Registered shrink-film wrapper

Capable of running at speeds of up to 200 bundles/min on a single row, the Baumer nonstop, print-registered shrink wrapper is designed for medium-to high-speed applications. It can pack products with or without partitions and has a user-friendly touchscreen operator interface. Its flexible design accommodates a variety of product types, the co. says, and it can be changed over in 2 to 15 min.
