

CPT SERIES

ALL-IN-ONE SHRINK BUNDLER AND TRAY FORMER

Designed specifically for retail-ready closures for print registered film. The CPT machine offers efficiency, customization, and rapid changeovers, ensuring your production line stays agile and responsive to market demands.

- **Rotary Gate System:** Releases products onto a flight bar for efficient collation.
- **Vacuum Picker:** Swiftly unloads corrugate blanks onto a conveyor
- **Conveyor System:** Delivers blanks beneath product bundles, preparing for tray formation
- **Adhesive Application:** A precise spray of hot melt glue enhances tray bonding
- **Folding Mechanism:** Side guides fold the ends of the blank, fully shaping the tray
- **Wrap-Arm:** Applies overlap film around the bundle, ensuring secure packaging
- **Shrink Tunnel:** Product is run through energy efficient shrink tunnel to deliver a shrink-wrapped tray that is ready for your distribution and retail needs
